Simple Report · Illustrative format sample

A concise, complete four-part reflection

A fixed illustrative chart shows the structure, depth, and boundaries of the purchased format.

This frozen editorial sample demonstrates the exact report structure and depth. It is not a personal reading, a purchased artifact, or model-quality evidence.

AI transparency

Purchased reports contain AI-generated interpretation based on a cultural BaZi lens. This hand-authored, frozen editorial sample demonstrates the format only. Neither is a prediction or a substitute for professional medical, mental-health, legal, financial, employment, or emergency support.

Treat every cultural interpretation as a reflection prompt, not a fact or instruction. Keep lived evidence, personal agency, and qualified professional support primary.
